

**AMENDMENTS TO THE SPECIFICATION**

Amend paragraph [0018] of the published application as follows:

[0018] The detection means 30 and more particularly the expulsion detector may be connected to electronic means 60 adapted to process the signal(s) output by the said detection means 30, firstly to inform the user that the dose has been dispensed, and secondly to implement other functions, for example such as actuation of a dose counter or indicator.
